

PAUL DOEN FOLI

Full-Stack Developer | Frontend Specialist | React · Node.js · AWS

☎ 0551604818 ✉ paulfoli122@gmail.com 📍 Dodowa, Ghana

PROFESSIONAL PROFILE

Motivated Full-Stack Developer and Level 200 BSc. Information Technology student at UPSA, specialising in frontend engineering with strong backend capabilities. Proficient in React, Node.js, Vue, and SQL databases — including production deployment experience (explorevolta.site). Adept at building scalable, user-centric web applications and rapidly adopting new technologies. Proven communicator and analytical thinker with hands-on AWS exposure and a passion for clean, maintainable code.

TECHNICAL SKILLS

Frontend: React, ReactNative, Vue.js, HTML5, CSS3, JavaScript (ES6+), Responsive Design

Backend: Node.js, JavaScript, REST APIs, Express.js, SQL (MySQL / PostgreSQL)

Cloud & DevOps: AWS (S3, CloudFront, Lambda, API Gateway, RDS Aurora), CI/CD basics

Tools & Platforms: Git/GitHub, Figma (UI prototyping), ClickUp, VS Code, React Native (learning)

AI & Emerging Tech: Claude AI, Claude Code, Anthropic API integration

PROJECTS

Explore Volta explorevolta.site | Personal Project 2024 – Present

- Designed, built and deployed a full-stack tourism website for Ghana's Volta Region from scratch
- Architected frontend in React with responsive CSS, hosted on AWS S3 & CloudFront CDN
- Integrated Node.js backend with MySQL database for dynamic content management
- Sole developer responsible for UX design, development, deployment, and ongoing maintenance

Epsilon – UPSA Hostel Finder epsilonhostels.com | Personal Project 2025 – Present

- Building a live hostel-finder platform purpose-built for students of the University of Professional Studies, Accra (UPSA)
- Frontend deployed on Vercel; actively iterating on features, UI/UX improvements and performance optimisations
- Enables students to search, compare and locate nearby hostels — solving a real campus pain point
- Project is under continuous development with new features being added regularly

WORK EXPERIENCE

Subject Teacher | [Solid Foundation Private School](#) 2023 – 2024

- Taught Mathematics, Science and ICT/Computing to Classes 4–6
- Designed engaging lesson plans tailored to diverse learning abilities and assessed student performance
- Developed strong communication, classroom management and analytical problem-solving skills

Waiter / Server & Media Specialist | [M&D Catering Services](#) | [Assemblies of God Church](#) 2022 – 2023

- Delivered excellent customer service in a fast-paced environment; managed multiple tables simultaneously
- Served as Media Specialist handling AV, live streaming, and digital media for church services
- Built strong interpersonal, time-management and collaborative teamwork skills
